

ASSIGNMENT #5

What is your ideal family environment? What would your ideal relationship with your Cadet look like when they return? Dreaming and thinking about ideals means nothing unless those things are motivators for real change. So here is your chance.

Assignment:

- Write your cadet a letter describing the relationship and environment you would ideally like to see when they return. Make sure the content of the letter is stated positively (focus on positive change and yourself as much as possible). Send a copy of this letter to the AMYA Counselor (you may want to request feedback from the Counselor before you send the letter to your Cadet).
